1 Risk factors

Investing in bonds issued by SFL Corporation Ltd. involves inherent risks.

As the Company is the parent company of the Group, and a holding company, the risk factors for the Group are deemed to be equivalent for the purpose of this Base Prospectus.

The risks and uncertainties described in the Prospectus are risks of which the Company is aware and that the Company considers to be material to its business. If any of these risks were to occur, the Company's business, financial position, operating results or cash flows could be materially adversely affected, and the Company could be unable to pay interest, principal or other amounts on or in connection with the bonds. Prospective investors should carefully consider, among other things, the risk factors set out in this Base Prospectus, before making an investment decision. The risk factors set out in this Base Prospectus and the Final Terms cover the Company and the bonds issued by the Company, respectively.

An investment in the bonds is suitable only for investors who understand the risk factors associated with this type of investment and who can afford a loss of all or part of their investment. Any investor must conduct its own investigations and analysis of the Company and should consult his or her own expert advisors as to the suitability of any investment.

1.1 Risks related to the Company

1.1.1 Market risk

Cyclical and volatility within the maritime industry may lead to reduced revenues and profitability

The international seaborne transportation industry is both cyclical and volatile in terms of charter rates and profitability. The degree of charter rate volatility for vessels has varied widely. Fluctuations in charter rates result from changes in the supply and demand for vessel capacity and changes in the supply and demand for energy resources, commodities, semi-finished and finished consumer and industrial products internationally carried at sea. The supply of vessels generally increases with deliveries of new vessels and decreases with the scrapping of older vessels, conversion of vessels to other uses, such as floating production and storage facilities, and loss of tonnage as a result of casualties. If the Company enters into a charter when charterhire rates are low, the Company's revenues and earnings will be adversely affected. In addition, a decline in charterhire rates is likely to cause the market value of the Company's vessels to decline. The Company cannot assure that it will be able to successfully charter its vessels in the future or renew its existing charters at rates sufficient to allow it to operate its business profitably, or a reduced or unprofitable rates or may not be able to charter its vessels at all, meet its obligations or pay dividends to its shareholders. The factors affecting the supply and demand for vessels are outside of the Company's control, and the nature, timing and degree of changes in industry conditions are unpredictable.

Factors that influence demand for vessel capacity include:

- supply and demand for energy resources, commodities, semi-finished and finished consumer and industrial products;
- changes in the exploration for and production of energy resources, commodities, semi-finished and finished consumer and industrial products;
- the location of regional and global production and manufacturing facilities;
- the location of consuming regions for energy resources, commodities, semi-finished and finished consumer and industrial products;
- the globalization of production and manufacturing;
- global and regional economic and political conditions, including armed conflicts, terrorist activities, embargoes and strikes;
- economic slowdowns caused by public health events such as the ongoing COVID-19 pandemic;
- developments in international trade;
- changes in seaborne and other transportation patterns, including the distance cargo is transported by sea;
- environmental and other regulatory developments;
- currency exchange rates; and
- weather and natural disasters.

Factors that influence the supply of vessel capacity include:

- the number of newbuilding deliveries;
- the scrapping rate of older vessels;
- conversion of vessels to other uses, such as floating production and storage facilities;
- the price of steel and vessel equipment;
- changes in environmental and other regulations that may limit the useful lives of vessels;
- vessel casualties;
- the number of vessels that are out of service; and
- port or canal congestion.

Demand for the Company's vessels and charter rates are dependent upon, among other things, seasonal and regional changes in demand and changes to the capacity of the world fleet. The Company believe the capacity of the world fleet is likely to increase, and there can be no assurance that global economic growth will be at a rate sufficient to utilize this new capacity. Continued adverse economic, political or social conditions or other developments could further negatively impact charter rates, and therefore have a material adverse effect on the Company's business, results of operations and ability to pay dividends.

The charter-free market value of the Company's vessels and drilling units may increase or decrease depending on the level of supply and demand for vessels and drilling units. Furthermore, the charter-free market value may be affected by a number of other factors, including, but not limited to, the prevailing level of charter rates and dayrates, general economic and market conditions affecting the international shipping and offshore drilling industries, types, sizes and ages of vessels and drilling units, availability of or developments in other modes of transportation, competition from other companies, cost of newbuildings, governmental or other regulations and technological advances.

Seadrill's Chapter 11 filing could have a material adverse effect on the Group's business, financial condition and results of operations, as well as its ability to pay dividends

Two subsidiaries of the Company, namely SFL Hercules Ltd. and SFL Linus Ltd. (collectively referred to as the "Rig Owners") have leased two drilling units to two subsidiaries of Seadrill Limited, namely Seadrill Offshore AS and North Atlantic Linus Charterer Ltd. (collectively referred to as the "Seadrill Charterers").

The performance of the Seadrill Charterers under the mentioned leases is guaranteed by Seadrill Limited, Seadrill Rig Holding Company Ltd. and Seadrill Treasury UK Limited. Lower offshore oil exploration drilling activity since the fall of 2018 have resulted in reduced demand for drilling units, which has adversely affected the Seadrill Charterers' ability to secure drilling contracts and, therefore, their ability to make lease payments to the Rig Owners. According to public filings, Seadrill and most of its subsidiaries, including the Seadrill Charterers, have filed for Chapter 11 cases in the Southern District of Texas, USA (the "Chapter 11 Proceedings"). In connection with the Chapter 11 Proceedings, the relevant Rig Owners entered into interim funding agreements (the "Interim Funding Agreements") relating to the two drilling rigs that are chartered to subsidiaries of Seadrill to ensure uninterrupted performance on the sub-charters to oil majors. The Interim Funding Agreements have been sanctioned by the bankruptcy court pursuant to a cash collateral order entered on 9 March 2021. Pursuant to the Interim Funding Agreements, the relevant Seadrill Charterers will be allowed to use funds received from the respective sub-charterers of the rigs West LinusIn exchange, SFL Linus Ltd. will receive approximately 73% of the lease hire under the existing charter agreements for West Linus for the duration of the Interim Funding Agreements. The agreed amounts are sufficient to cover the full debt service relating to the rig. Any excess amounts paid under the above referenced sub-charters will remain in Seadrill's earnings accounts, which are pledged to the relevant Rig Owners. In August 2021, the Company entered into an amendment to its existing charter agreement relating to West Hercules. Under the amendment agreement with Seadrill, the West Hercules is contracted to be employed with an oil major until the second half of 2022, and thereafter redelivered to SFL in Norway. Pursuant to the amendment agreement, SFL has agreed to receive bareboat hire of (i) approximately \$64,700 per day until the earlier of Seadrill emerging from Chapter 11 and January 15, 2022 (ii) thereafter approximately \$60,000 per day while the rig is employed under a contract and generating revenues for Seadrill and approximately \$40,000 in all other modes, including when the rig is idle. Seadrill's assumptions of the amended agreement has been approved by the bankruptcy court.

Seadrill's failure to pay hire under the leases for the Company's drilling rigs when due, along with certain other events, including the commencement of the Chapter 11 Proceedings, constitute events of default under such leases and the related financing agreements. Unless cured or waived, an event of default under these lease agreements or related financing agreements could result in enforcement of the applicable provisions thereunder, which along with non-payment of amounts owed under the leases and/or a negative result under the Chapter 11 Proceedings, could have a material adverse effect on the Group's business, financial condition and results of operations, as well as its ability to pay dividends. While no assurances can be provided with regards to the outcome of Seadrill's Chapter 11 Proceedings, SFL continues to have constructive dialogue with Seadrill and the relevant financing banks to find a long term solution for the West Linus.

Financial instability may result in reduced access to credit and may disable us from repaying all of our obligations, including interest payments on the Bonds

Global financial markets and economic conditions have been, and continue to be, volatile. Beginning in February 2020, due in part to fears associated with the spread of COVID-19 (as more fully described below), global financial markets experienced volatility and a steep and abrupt downturn followed by a recovery, which volatility may continue as the COVID-19 pandemic continues. Credit markets and the debt and equity capital markets have been distressed and the uncertainty surrounding the future of the global credit markets has resulted in reduced access to credit worldwide, particularly for the shipping industry.

The amount of available capital from commercial lenders remains below levels seen before the global financial crisis. There has been a general decline in the willingness by banks and other financial institutions to extend credit, particularly in the shipping industry, due to the historically volatile asset values of vessels. As the shipping industry is highly dependent on the availability of credit to finance and expand operations, it has been and may continue to be negatively affected by this decline.

The Company has significant indebtedness outstanding under its NOK700 million Senior Unsecured Bonds due 2023, NOK700 million Senior Unsecured Bonds due 2024, NOK600 million Senior Unsecured Bonds due 2025, 5.75% Convertible Senior Notes due 2021 and 4.875% Convertible Senior Notes due 2023. The Company has also entered into bank loan facilities that it has used to refinance existing indebtedness and to acquire additional vessels. The Company may need to refinance some or all of its indebtedness on maturity of its convertible notes, bonds or bank loan facilities, to acquire additional vessels in the future or for general corporate purposes. The Company cannot assure that it will be able to do so on terms acceptable to itself or at all, and as a result of concerns about the stability of financial markets generally and the solvency of counterparties specifically, the availability and cost of obtaining money from the credit markets has become more difficult as many lenders have increased interest rates, enacted tighter lending standards, refused to refinance existing debt at all or on terms similar to current debt and reduced, and in some cases ceased, to provide funding to borrowers. Due to these factors, we cannot be certain that financing will be available if or when needed and to the extent required on acceptable terms. If financing is not available when needed, or is available only on unfavorable terms, we may be unable to meet our obligations as they come due or we may be unable to enhance our existing business, complete additional vessel acquisitions, otherwise take advantage of business opportunities as they arise, or the Company will have to dedicate some or all of its cash flows, and it may be required to sell some of its assets, to pay the principal and interest on its indebtedness.

Further, the Company's debt service obligations require the Company to dedicate a substantial portion of its cash flows from operations to required payments on indebtedness and could limit its ability to obtain additional financing, make capital expenditures and acquisitions, and carry out other general corporate activities in the future. These obligations may also limit the Company's flexibility in planning for, or reacting to, changes in its business and the shipping and offshore industry or detract from its ability to successfully withstand a downturn in its business or the economy generally. This may place the Company at a competitive disadvantage to other less leveraged competitors.

The uncertainty surrounding the future of the credit markets in the United States, Europe and the rest of the world has resulted in increased risk related to access to credit worldwide. As of December 31, 2020 had total outstanding indebtedness of \$1.8 billion under our various credit facilities and bond loans, including our equity-accounted subsidiaries and a further \$0.6 billion of financial lease obligations.

Risks of terrorism and political and social unrest could have a material adverse impact on the Company's business, financial condition, results of operations and ability to pay coupons, debt installments and/or dividends

Continuing conflicts and recent developments in the Middle East, parts of Africa and elsewhere, and the presence of United States and other armed forces in Afghanistan and other countries, may lead to additional acts of terrorism and armed conflict around the world, which may contribute to further economic instability in the global financial markets. These uncertainties could also adversely affect the Company's ability to obtain financing on terms acceptable to itself or at all. In the past, political conflicts have also resulted in attacks on vessels, mining of waterways and other efforts to disrupt international shipping, particularly in the Arabian Gulf region. Acts of terrorism and piracy have also affected vessels trading in regions such as the South China Sea the Gulf of Aden off the coast of Somalia and off the coast of Nigeria. Any of these occurrences, or the perception that the Company's vessels are potential terrorist targets, could have a material adverse impact on the Company's business, financial condition, results of operations and ability to pay coupons, debt installments and/or dividends.

Uncertainties regarding the economic impact of the COVID-19 pandemic are likely to result in sustained market turmoil, which could also negatively impact the Company's business, financial condition and cash flows

Since the beginning of calendar year 2020, the outbreak of COVID-19 pandemic, which originated in China in late 2019 and subsequently spread around the world, has negatively affected economic conditions, the supply chain, the labor market, the demand for shipping regionally as well as globally and may otherwise impact the Company's operations and the operations of the Company's customers and suppliers. If the COVID-19 pandemic continues on a prolonged basis or becomes more severe, the adverse impact on the global economy and the rate environment for tankers, containerships, dry bulk and other cargo vessels may deteriorate further and the Company's operations and cash flows may be negatively impacted. The extent of COVID-19's impact on the Company's financial and operational results, which could be material, will depend on the length of time that the pandemic continues and whether subsequent waves of the infection happen. Uncertainties regarding the economic impact of the COVID-19 pandemic are likely to result in sustained market turmoil, which could also negatively impact the Company's business, financial condition and cash flows.

At this stage, it is difficult to determine the full impact of COVID-19 on the Company's business. Effects of the current pandemic have or may include, among others:

- deterioration of economic conditions and activity and of demand for shipping;
- operational disruptions to us or our customers due to worker health risks and the effects of new regulations, directives or practices implemented in response to the pandemic (such as travel restrictions for individuals and vessels and quarantining and physical distancing);
- potential delays in (a) the loading and discharging of cargo on or from the Company's vessels, (b) vessel inspections and related certifications by class societies, customers or government agencies and (c) maintenance, modifications or repairs to, or drydocking of, the Company's existing vessels due to worker health or other business disruptions;
- reduced cash flow and financial condition, including potential liquidity constraints;
- credit tightening or declines in global financial markets, including to the prices of the Company's publicly traded securities and the securities of the Company's peers, could make it more difficult for us to access capital, including to finance the Company's existing debt obligations;
- potential reduced ability to opportunistically sell any of the Company's vessels on the second-hand market, either as a result of a lack of buyers or a general decline in the value of second-hand vessels;
- potential decreases in the market values of the Company's vessels and any related impairment charges or breaches relating to vessel-to-loan financial covenants;
- potential disruptions, delays or cancellations in the construction of new vessels, which could reduce the Company's future growth opportunities;
- due to quarantine restrictions placed on persons and additional procedures using commercial aviation and other forms of public transportation, the Company's crew has had difficulty embarking and disembarking on the Company's ships. Although the restrictions have on certain cases delayed crew embarking and disembarking on the Company's ships, they have not far functionally affected the Company's ability to crew out vessels;
- international transportation of personnel could be limited or otherwise disrupted. In particular, the Company's crews generally work on a rotation basis, relying largely on international air transport for crew changes plan fulfillment. Any such disruptions could impact the cost of rotating the Company's crew, and possibly impact the Company's ability to maintain a full crew synthesis onboard all the Company's vessels at any given time. It may also be difficult for the Company's in-house technical teams to travel to ship yards to observe vessel maintenance, and we may need to hire local experts, which local experts may vary in skill and are difficult to supervise remotely for work we ordinarily address in-house; and
- potential non-performance by counterparties relying on force majeure clauses and potential deterioration in the financial condition and prospects of the Company's customers, joint venture partners or other business partners.

The occurrence or continued occurrence of any of the foregoing events or other epidemics or an increase in the severity or duration of the COVID-19 or other epidemics could have a material adverse effect on the Company's business, results of operations, cash flows, financial condition, value of our vessels, and ability to pay dividends.

1.1.2 Legal and regulatory risk

Government regulation of vessels, particularly in the areas of safety and environmental requirements, can be expected to become stricter in the future and require the Company to incur significant capital expenditures on its vessels to keep them in compliance, or even to scrap or sell certain vessels altogether SFL's operations are affected by extensive and changing international, national, state and local laws, regulations, treaties, conventions and standards in force in international waters, the jurisdictions in which the Company's tankers and other vessels operate, and the country or countries in which such vessels are registered, including those governing the management and disposal of hazardous substances and wastes, the cleanup of oil spills and other contamination, air emissions, and water discharges and ballast and bilge water management.

In addition, vessel classification societies and the requirements set forth in the IMO's International Management Code for the Safe Operation of Ships and for Pollution Prevention, or the ISM Code, also impose significant safety and other requirements on the Company's vessels. In complying with current and future environmental requirements, vessel owners and operators may also incur significant additional costs in meeting new maintenance and inspection requirements, in developing contingency arrangements for potential spills and in obtaining insurance coverage. Government regulation of vessels, particularly in the areas of safety and environmental requirements, can be expected to become stricter in the future and require the Company to incur significant capital expenditures on its vessels to keep them in compliance, or even to scrap or sell certain vessels altogether.

Although the Company has arranged insurance to cover certain environmental risks, there can be no assurance that such insurance will be sufficient to cover all such risks or that any claims will not have a material adverse effect on the Company's business, results of operations, cash flows and financial condition and available cash

Under local, national and foreign laws, as well as international treaties and conventions, the Company could incur material liabilities, including cleanup obligations, natural resource damages and third-party claims for personal injury or property damages, in the event that there is a release of petroleum or other hazardous substances from the Company's vessels or otherwise in connection with the Company's current operations. The Company could also incur substantial penalties, fines and other civil or criminal sanctions, including in certain instances seizure or detention of its vessels, as a result of violations of or liabilities under environmental laws, regulations and other requirements. Environmental laws often impose strict liability for remediation of spills and releases of oil and hazardous substances, which could subject the Company to liability without regard to whether the Company was negligent or at fault.

Coastal states in the United States have enacted pollution prevention liability and response laws, many providing for unlimited liability. Furthermore, the 2010 explosion of the drilling rig Deepwater Horizon, which is unrelated to SFL, and the subsequent release of oil into the Gulf of Mexico, or other events, may result in further regulation of the shipping and offshore industries and modifications to statutory liability schemes, which could have a material adverse effect on the Company's business, financial condition, results of operations and cash flows. An oil spill could also result in significant liability, including fines, penalties, criminal liability and remediation costs for natural resource damages under other international and U.S. federal, state and local laws, as well as thirdparty damages, and could harm the Company's reputation with current or potential charterers of its vessels. The Company is required to satisfy insurance and financial responsibility requirements for potential oil (including marine fuel) spills and other pollution incidents. Although it has arranged insurance to cover certain environmental risks, there can be no assurance that such insurance will be sufficient to cover all such risks or that any claims will not have a material adverse effect on the Company's business, results of operations, cash flows and financial condition and available cash.

The Company is exposed to litigation risks

The Company may, from time to time, be involved in various litigation matters. The Company cannot predict with certainty the outcome or effect of any claim or other litigation matter, and the ultimate outcome of any litigation or the potential costs to resolve them may have a material adverse effect on the Company. Insurance may not be applicable or sufficient in all cases and/or insurers may not remain solvent which may have a material adverse effect on the Company's financial condition.

The Bonds may not comply with future sustainability-linked bond standards The sustainability alignment of the Bonds has been measured against the ICMA Sustainability-Linked Bond Principles of June 2020. The ICMA Sustainability-Linked Bond Principles and other relevant market standards may be updated during the term of the Bonds. Should the Bonds not qualify as aligned with such updated standards, this may have an impact on the pricing of the Bonds.

1.1.3 Operational risk

If counterparties were to breach their obligations to SFL under any of these agreements, the Company's shareholders and bondholders would have to rely on SFL to pursue its remedies against those counterparties. From time to time, the Company enters into, among other things, charter parties with its customers, newbuilding contracts with shipyards, credit facilities with banks, guarantees, interest rate swap agreements, currency swap agreements, total return bond swaps, and total return equity swaps. Such agreements are subject to the Company's counterparty risks. The ability of each of the Company's counterparties to perform its obligations under a contract with SFL will depend on a number of factors that are beyond the Company's control and may include, among other things, general economic conditions, the condition of the maritime and offshore industries, the overall financial condition of the counterparty, charter rates and dayrates received for specific types of vessels and drilling units, and various expenses. In addition, in depressed market conditions, the Company's charterers and customers may no longer need a vessel or drilling unit that is currently under charter or contract, or may be able to obtain a comparable vessel or drilling unit at a lower rate. As a result, charterers and customers may seek to renegotiate the terms of their existing charter parties and drilling contracts, or avoid their obligations under those contracts. Should a counterparty fail to honor its obligations under agreements with the Company, SFL could sustain significant losses which could have a material adverse effect on its business, financial condition, results of operations and cash flows.

The charters, management agreements, charter ancillary agreements and the other contractual agreements the Company has with companies affiliated with Hemen were made in the context of an affiliated relationship. Although every effort was made to ensure that such agreements were made on an arm's-length basis, the negotiation of these agreements may have resulted in prices and other terms that are less favorable to the Company than terms it might have obtained in arm's-length negotiations with unaffiliated third parties for similar services.

In general the holders of the Company's common shares and other securities have no step in right nor direct right to enforce the obligations of the counterparties of the company, or any of the Company's other customers under the charters, or any of the other agreements to which the Company is a party. Accordingly, if any of those counterparties were to breach their obligations to SFL under any of these agreements, the Company's shareholders and bondholders would have to rely on SFL to pursue its remedies against those counterparties.

The Company is exposed to operational risks that may not be covered by insurance

The Company's vessels and their cargoes are at risk of being damaged or lost, due to events such as marine disasters, bad weather, mechanical failures, human error, environmental accidents, diseases, war, terrorism, piracy, political circumstances and hostilities in foreign countries, labor strikes and boycotts, changes in tax rates or policies, and governmental expropriation of the Company's vessels. Any of these events may result in loss of revenues, increased costs and decreased cash flows to the Company's customers, which could impair their ability to make payments to the Company under its charters.

In the event of a casualty to a vessel or other catastrophic event, the Company will rely on its insurance to pay the insured value of the vessel or the damages incurred. Through the agreements with the Company's vessel managers, SFL procures insurance for most of the vessels in its fleet employed under time charters against those risks that the Company believes the shipping industry commonly insures against. These insurances include marine hull and machinery insurance, protection and indemnity insurance, which include pollution risks and crew insurances, and war risk insurance. Currently, the amount of coverage for liability for pollution, spillage and leakage available to the Company on commercially reasonable terms through protection and indemnity associations and providers of excess coverage is USD 1 billion per vessel per occurrence.

The Company cannot assure you that it will be adequately insured against all risks. The Issuer's vessel managers may not be able to obtain adequate insurance coverage at reasonable rates for its vessels in the future. For example, in the past more stringent environmental regulations have led to increased costs for, and in the future may result in the lack of availability of, insurance against risks of environmental damage or pollution. Additionally, the Company's insurers may refuse to pay particular claims. For example, the circumstances of a spill, including non-compliance with environmental laws, could result in denial of coverage, protracted litigation, and delayed or diminished insurance recoveries or settlements. Any significant loss or liability for which the Company is not insured could have a material adverse effect on its financial condition. Under the terms of the Company's bareboat charters, the charterer is responsible for procuring all insurances for the vessel.

The Company is exposed to risks associated to owning older vessels and acquiring second-hand vessels

In general, the costs to maintain a vessel in good operating condition increase as the vessel ages. Due to improvements in engine technology, older vessels are typically less fuel-efficient than more recently constructed vessels. Cargo insurance rates increase with the age of a vessel, making older vessels less desirable to charterers.

Governmental regulations, safety, environmental or other equipment standards related to the age of tankers and other types of vessels may require expenditures for alterations or the addition of new equipment to the Company's vessels to comply with safety or environmental laws or regulations that may be enacted in the future. These laws or regulations may also restrict the type of activities in which the Company's vessels may engage or prohibit their operation in certain geographic regions. The Issuer cannot predict what alterations or modifications its vessels may be required to undergo as a result of requirements that may be promulgated in the future, or that as the Company's vessels age market conditions will justify any required expenditures or enable the Company to operate its vessels profitably during the remainder of their useful lives.

SFL's current business strategy includes additional growth through the acquisition of both newbuildings and second-hand vessels. Although the Company generally inspects second-hand vessels prior to purchase, this does not normally provide the Company with the same knowledge about the vessels' condition that it would have had if such vessels had been built for and operated exclusively by itself. Therefore, the Company's future operating results could be negatively affected if the vessels do not perform as the Company expects. Also, the Issuer does not receive the benefit of warranties from the builders if the vessels the Company buys are older than one year.

1.1.4 Financial risk

Interest rates give rise to changes in the valuations of interest rate swaps and could adversely affect the results of the Company's operations and other comprehensive income. The Company is exposed to fluctuations in interest rates with its diversified debt portfolio which varies from shorter floating interest to longer fixed interest. The Company uses interest rate swaps to manage its interest rate exposure and has interest rate adjustment clauses in some of its chartering agreements. For a portion of the Company's floating rate debt, if interest rates rise, interest payments on the Company's floating rate debt that it has not swapped into effectively fixed rates would increase.

An increase in interest rates could cause the Company to incur additional costs associated with its debt service, which may materially and adversely affect the results of its operations. The interest rate swaps that have been entered into by the Company and its subsidiaries are derivative financial instruments that effectively translate floating rate debt into fixed rate debt. US GAAP requires that these derivatives be valued at current market prices in the Company's financial statements, with increases or decreases in valuations reflected in the income statement or, if the instrument is designated as a hedge, in other comprehensive income. Changes in interest rates give rise to changes in the valuations of interest rate swaps and could adversely affect the results of its operations and other comprehensive income.

Currency fluctuations could have an adverse effect on the Company's cash flows, financial condition and results of operations

The majority of the Company's transactions, assets and liabilities are denominated in U.S. dollars, the functional currency of the Company. Though, The Company has entered into currency swap transactions, involving the payment of U.S. dollars in exchange for Norwegian kroner, which are designated as hedges against the NOK700 million senior unsecured bonds due 2023, the NOK700 million senior unsecured bonds due 2024 and the NOK600 million senior unsecured bonds due 2025. However, NOK is sensitive to e.g. fluctuations in the U.S dollars oil price, as there is a risk that currency fluctuations could have an adverse effect on the Company's cash flows, financial condition and results of operations. The Company has not entered into forward contracts for either transaction or translation risk. Accordingly, there is a risk that currency fluctuations could have an adverse effect on the Company's cash flows, financial condition and results of operations.

The Company is exposed to credit risks to the extent that the Company's counterparties are unable to perform or unwilling to honor under the contracts that could have an adverse effect on the Company's cash flows, financial condition and results of operations

Restrictions in the Company's financial indebtedness may unable the Company to make distributions to its shareholders

The Company's loan facilities and the indentures for its convertible notes and bonds contain conditions which limits the Company's business and future financing activities. For example, the Company's may not make distributions to its shareholders if it does not satisfy certain financial covenants or receive waivers from its lenders. The Company cannot assure you that it will be able to satisfy these covenants in the future. As a consequence, due to these restrictions, the Company may need to seek permission from its lenders in order to engage in some corporate actions. The Company's lenders' interests may be different from the Company's and SFL cannot guarantee that it will be able to obtain its lenders' permission when needed. This may prevent the Company from taking actions that are in its best interests.

Market value of vessels may decline and may lead to that the Company recording impairment adjustments in its financial statements which could adversely affect the financial results and condition

During the period a vessel or drilling unit is subject to a charter, the Company will not be permitted to sell it to take advantage of increases in vessel or drilling unit values without the charterers' agreement. Conversely, if the charterers were to default under the charters due to adverse market conditions, causing a termination of the charters, it is likely that the charter-free market value of the Company's vessels or drilling units would also be depressed. The charter-free market values of SFL's vessels and drilling units have experienced high volatility in recent years. The charter-free market value of the Company's vessels and drilling units may increase and decrease depending on a number of factors, as further described in section 1.1.1.

In addition, as vessels and drilling units grow older, they generally decline in value. If the charter-free market values of the Company's vessels and drilling units decline, the Company may not be in compliance with certain provisions of its credit facilities and it may not be able to refinance its debt, obtain additional financing or make distributions to its shareholders. Additionally, if the Company sell one or more of its vessels or drilling units at a time when vessel and drilling unit prices have fallen and before it have recorded an impairment adjustment to its consolidated financial statements, the sale price may be less than the vessel's or drilling unit's carrying value on the balance sheet of the Company's consolidated financial statements, resulting in a loss and a reduction in earnings. Furthermore, if vessel and drilling unit values fall significantly, the Company may have to record an impairment adjustment in its financial statements, which could adversely affect the financial results and condition.

1.2 Risks related to the Bonds

1.2.1 Volatility in price, illiquidity in the market and callable bonds

The Bonds will be new securities for which there is currently no trading market. Even though the Issuer intends to list the Bonds on the Oslo Stock Exchange (Oslo Børs), no assurance can be given that the Bonds will actually be listed. The liquidity of any market for the Bonds will depend on the number of holders of those Bonds, investor interest at large and relative to the Issuer and its business segment in particular, and the interest of securities dealers in making a market in those securities and other factors. Accordingly, there can be no assurance as to (i) the liquidity of any such market that may develop, (ii) Bondholders' ability to sell the Bonds, or (iii) the price at which Bondholders would be able to sell the Bonds. If an active market does not develop or is not maintained, the price and liquidity of the Bonds may be adversely affected. In addition, transfer restrictions may apply to the Bonds and there may be limitations as to where the Bonds may be marketed, offered and registered. Further, the Bonds are callable subject to certain provisions, including that a certain premium is paid, which could affect the market value of the Bonds.

1.2.2 Significant cash requirement to meet debt obligations and sustain operations

The ability of the Issuer to make principal or interest payments when due in respect of its financial indebtedness, including (without limitation) the Issuer's financial indebtedness in respect of the Bonds and the Issuer's financial indebtedness under other credit arrangements, will depend on the Company's future performance and its ability to generate cash. The Issuer will need significant amounts of cash to fund its business and operations. The Bonds mature in 2026 and if the Issuer does not have sufficient cash flows from operations and other capital resources to pay its financial indebtedness and to fund its other liquidity needs, it may be required to incur new financial indebtedness in order to be able to repay the Bonds. If the Issuer is unable to refinance all or a portion of its indebtedness or obtain such refinancing on terms acceptable to the Issuer, the Issuer may be forced to reduce or delay its business activities or capital expenditures or sell assets or raise additional debt or equity financing in amounts that could be substantial. No assurance can be given that the Issuer will be able to accomplish any of these measures in a timely manner or on commercially reasonable terms, if at all. In addition, the terms of any other or future debt may limit the Issuer's ability to pursue any of these measures.

1.2.3 The Issuer may have insufficient funds to make required redemptions or repurchases of the Bonds

The Bond Agreement provide for certain redemption and repurchase mechanics in respect of the Bonds which entail redemption or repurchase with a premium, either voluntarily or mandatorily. The latter will be the case, inter alia, upon the occurrence of a put-option event (as described in the Bond Agreement), whereby each individual

Bondholder has a right to require that the Issuer purchases all or some of the Bonds at 100% of nominal value. There can be no assurance that the Issuer will have sufficient funds at the time of such event to make the required redemption and/or repurchase of the Bonds, should a mandatory redemption or repurchase occur. Further, an investor may not be able to reinvest the prepayment proceeds at an equivalent rate of interest.

1.2.4 Restrictive covenants may lead to inability to finance operations, capital needs and to pursue business opportunities

The Bond Agreement restricts the Group's ability to, inter alia, make certain payments and merge, de-merge and dispose of assets. Even though these limitations are subject to carve-outs and limitations, some of the covenants could limit the Issuer's ability to finance future operations and capital needs and its ability to pursue activities that may be in the Issuer's interest. Further, the Issuer may be subject to affirmative, negative and other covenants contained in other agreements for financial indebtedness. A breach of any of such covenants, ratios, tests or restrictions could result in an event of default under the Bond Agreement. This could have a material adverse effect on the Issuer and its ability to carry on its business and operations and, in turn, the Issuer's ability to pay all or part of the interest or principal on the Bonds.

1.2.5 Interest rate risk

The interest rate of the Bonds is subject to variability of the NIBOR interest rate and will vary in accordance with the variability of the NIBOR interest rate. The interest rate risk related to the Bond Issue is limited by quarterly adjustments to the change in the reference interest rate (NIBOR 3 months) over the 5 year term. The primary price risk for a floating rate bond issue will be related to the market view of the correct trading level for the credit spread related to the bond issue at a certain time during the tenor, compared with the credit margin the bond issue is carrying. A possible increase in the credit spread trading level relative to the coupon credit margin may relate to general changes in the market conditions and/or Issuer specific circumstances. However, under normal market circumstances the anticipated tradable credit spread will fall as the duration of the bond issue becomes shorter. In general, the price of bonds will fall when the credit spread in the market increases, and conversely the bond price will increase when the market spread decreases.

1.2.6 Level of subordination of the Bonds

The Bonds constitute senior debt obligations of the Issuer, and rank ahead of subordinated debt of the Issuer. However, the Bonds do not rank ahead of any obligations for the Issuer related to any potential claims which are preferred by bankruptcy, insolvency, liquidation or other similar laws of general application.

6 Business Overview

SFL is an international ship owning and chartering company with a large and diverse asset base across the maritime, renewable and offshore asset classes and business sectors.

6.1.1 Main categories of services performed and principal markets

Fleet

SFL owns a substantially modern fleet of vessels. Our assets consist of five crude oil tankers, 22 dry bulk carriers, 35 container vessels (including seven leased-in vessels), six car carriers, one jack-up drilling rig, one ultra-deepwater drilling units, two chemical tankers and two oil product tankers included in our wholly owned and partly owned subsidiaries and associated companies.

The table in Annex 4 sets forth the fleet that we own or charter-in including those in our associated companies as of the date of this prospectus. All of the VLCCs, Suezmax tankers, product tankers and chemical tankers are double-hull vessels.

In the year ended December 31, 2020, our two VLCCs accounted for 6% of our consolidated operating revenues (2019: 4%, 2018: 8%). In the year ended December 31, 2020, we had eight Capesize dry bulk carriers which accounted for approximately 11% of our consolidated operating revenues (2019: 11%, 2018: 13%).

We also earned income from 32 container vessels on long term bareboat charters, which accounted for approximately 13% of our consolidated operating revenues in the year ended December 31, 2020 (2019: 14%, 2018: 11%).

We had 12 container vessels on long term time charters at December 31, 2020, which accounted for approximately 29% of our consolidated operating revenues (2019: 30%; 2018: 27%).

We also had four container vessels on time charter which accounted for approximately 15% of our consolidated operating revenues in the year ended December 31, 2020 (2019: 14%, 2018: 10%).

Our income earned from offshore units was partly earned from drilling units which were accounted for using the equity method. In October 2020, two of the three subsidiaries were consolidated. (See details in risk factors and history and developments above). In the year ended December 31, 2020, income from associated companies accounted for 7.2% of our net loss (2019: 35.0% of net income, 2018: 39.1% of net income). Also, in the year ended December 31, 2020, revenue from subsidiaries that were consolidated from October 2020, accounted for approximately 1% of our consolidated operating revenues (2019: 0%, 2018: 0%).

The table in Annex 5 sets out the contracted charter log as per date of this prospectus.

Competition

The Company currently operate in several sectors of the maritime, shipping and offshore industry, including oil transportation, dry bulk shipments, chemical transportation, oil products transportation, container transportation, car transportation and drilling rigs.

The markets for international seaborne oil transportation services, dry bulk transportation services, and container and car transportation services are highly fragmented and competitive. Seaborne oil transportation services are generally provided by two main types of operators: major oil companies or captive fleets (both private and state-owned) and independent shipowner fleets.

In addition, several owners and operators pool their vessels together on an ongoing basis, and such pools are available to customers to the same extent as independently owned and operated fleets. Many major oil companies and other commodity carriers also operate their own vessels and use such vessels not only to transport their own cargoes but also to transport cargoes for third parties, in direct competition with independent owners and operators.

Container vessels and car carriers are generally operated by logistics companies, where the vessels are used as an integral part of their services. Therefore, container vessels and car carriers are typically chartered more on a period basis and single voyage chartering is less common. As the market has grown significantly over recent decades, we expect in the future to see more vessels chartered by logistics companies on a shorter term basis, particularly smaller vessels.

Our jack-up drilling rig and our ultra-deepwater drilling unit are sub-chartered out on long term charters to oil majors. Jack-up drilling rigs and ultra-deepwater drilling units are normally chartered by oil companies on a shorter-term basis linked to area-specific well drilling or oil exploration activities, but there have also been longer period charters available when oil companies want to cover their longer term requirements for such rigs. Ultra-deepwater semi-submersible drilling rigs are selfpropelled, and can therefore easily move between geographic areas. Jack-up drilling rigs are not self-propelled, but it is common to move these assets over long distances on heavy-lift vessels. Therefore, the markets and competition for these rigs are effectively world-wide.

Competition for charters in all the above sectors is intense and is based upon price, location, size, age, condition and acceptability of the vessel/rig and its technical and commercial managers. Competition is also affected by the availability of other sized vessels/rigs to compete in the trades in which we engage. Most of our existing vessels are chartered at fixed rates on a long term basis and are thus not directly affected by competition in the short term. However, tankers chartered to Frontline Shipping and dry bulk carriers chartered to the Golden Ocean Charterer are subject to profit sharing agreements, which will be affected by competition experienced by the charterers.

7 Organizational structure

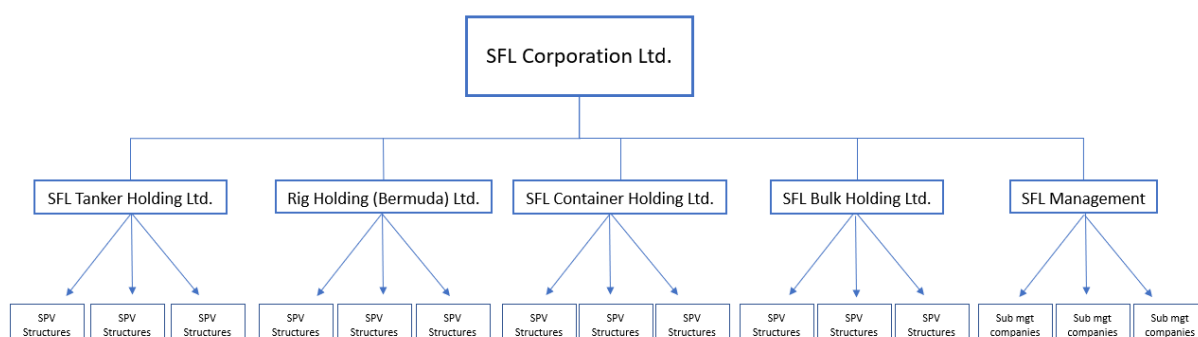

7.1 Description of Issuer

SFL Corporation Ltd. is a Bermuda-based company incorporated in Bermuda on October 10, 2003, as a Bermuda exempted company under the Bermuda Companies Law of 1981. We are engaged primarily in the ownership and operation of vessels and offshore related assets, and also involved in the charter, purchase and sale of assets.

Our primary objective is to continue to grow our business through accretive acquisitions across a diverse range of marine and offshore asset classes. In doing so, our strategy is to generate stable and increasing cash flows by chartering our assets primarily under medium to long term bareboat or time charters.

SFL operates through subsidiaries located in Bermuda, Liberia, Norway, Singapore, the United Kingdom and the Marshall Islands. The table in Annex 3 sets out the subsidiaries as per the date of this prospectus.

The company structure is shown below.

7.2 Dependence upon other entities

Our subsidiaries own all of our vessels and drilling units, and payments under our charter agreements are made to our subsidiaries. As a result, our ability to satisfy our financial and other obligations depends on the performance of our subsidiaries and their ability to distribute funds to us.

Therefore, the Company is dependent on the results of the operations of its subsidiaries.

8 Trend information

8.1 Prospects and financial performance

There has been no material adverse change in the prospects of the Issuer since the date of its last published audited financial statements.

There has been no significant change in the financial performance of the Group since the end of the last financial period for which financial information has been published to the date of the Base Prospectus.

8.2 Known trends, uncertainties, demands, commitments or events

Liners

Following recently announced transactions, SFL will have a liner fleet of 35 wholly or partly owned container vessels and six car carriers, including four dual fuel car carriers under construction. The liner fleet generated approximately \$75.3 million in gross charter hire in the second quarter, including \$2.4 million of profit share from fuel savings. Of the total gross charter hire, approximately 95% was derived from vessels on long term charters and the remaining was derived from vessels on short term charters.

According to industry sources, the container shipping market continues to see extraordinary conditions with strong recovery in container volumes along with port congestion and logistical issues. During the quarter containership charter rates experienced record high levels, with near term outlook remaining positive.

As of June 30, 2021, including recently announced transactions, the estimated fixed rate charter backlog³ from the wholly and partly owned liner fleet was approximately \$2.2 billion, with an average remaining charter term of approximately 4.7 years or 7.5 years if weighted by charter hire.

In April, the Company entered into an agreement with the Volkswagen Group to build and charter out two newbuild dual-fuel 7,000 CEU car carriers designed to use liquefied natural gas ("LNG"). The charter period is 10 years from delivery in 2023, and until the new vessels are delivered, Volkswagen Group will charter our two existing car carriers SFL Composer and SFL Conductor. The transaction is estimated to add more than \$200 million to the fixed-rate charter backlog.

Subsequent to quarter end, the Company entered into an agreement to acquire two modern 6,800 TEU container vessels in combination with long term time charters to Maersk. The charters will run for a period of 6 years, and there are purchase options with profit split at the end of year five and six of the charter period. The vessels are expected to be delivered in the third quarter, and the fixed rate charter backlog will increase by more than \$160 million.

Additionally, the Company has entered into an agreement to acquire two modern 14,000 TEU container vessels in combination with charters to Evergreen. The new vessels are employed on time charters until 2023 and 2024, respectively, and will be available for new charter opportunities thereafter. The vessels are expected to be delivered in the third quarter, and the fixed rate charter backlog will increase by more than \$80 million. We expect to initiate discussions for new charters well in advance of expiry of the existing charters.

Moreover, the Company entered into an agreement with a major Asia-based transportation company to build and charter out two newbuild dual-fuel 7,000 CEU car carriers designed to use LNG. The charter period is 10 years from delivery in 2024. The transaction is estimated to add more than \$200 million to the fixed-rate charter backlog. Finally, the charterer of 18 vintage feeder container vessels has exercised its purchase options of the vessels with delivery expected in the third quarter. Net cash proceeds after repayment of associated debt is estimated to be approximately \$40 million. The Company does not expect any material accounting impact arising from the transaction.

Tankers

SFL has nine crude oil, product and chemical tankers, with the majority employed on long term charters. The vessels generated approximately \$14.6 million in gross charter hire in the second quarter.

SFL has two Suezmax tankers trading in the spot market, and the net charter hire from these vessels was approximately \$1.8 million in the second quarter, compared to approximately \$2.5 million in the first quarter.

Tankers trading in the spot market experienced weaker results compared to the previous quarter, following continued oil production supply cuts as a result of low global oil demand. Tanker vessel values have however continued to strengthen through the quarter.

Dry Bulk

The Company owns 22 dry bulk carriers. 12 vessels are employed on long term charters, and the other ten are trading in the short term market. SFL generated approximately \$39.4 million in gross charter hire from the dry bulk fleet in the second quarter, including \$1.2 million of profit share.

During the second quarter, freight rates generally increased as demand for transportation increased along with port congestions absorbing vessel capacity. This has continued into the third quarter. The Company has ten dry bulk vessels ranging between 32,000 and 57,000 dwt, employed in the spot and short term market. These vessels generated approximately \$14.9 million in net charter hire during the second quarter, compared to approximately \$9.8 million in the previous quarter.

Offshore

SFL owns two drilling rigs which are chartered out to subsidiaries of Seadrill on bareboat terms. In the second quarter, the Company received charter hire of approximately \$12.2 million on the rigs.

In February 2021, Seadrill and most of its subsidiaries filed Chapter 11 cases in the Southern District of Texas. SFL and certain of its subsidiaries have entered into court approved interim agreements with Seadrill relating to West Linus and West Hercules, allowing for the uninterrupted performance of sub-charters to oil majors while the Chapter 11 process is ongoing.

Subsequent to quarter end, the Company entered into an amendment to its existing charter agreement relating to West Hercules. Under the amendment agreement with Seadrill, the West Hercules is contracted to be employed with an oil major until the second half of 2022, and thereafter redelivered to SFL in Norway.

Pursuant to the amendment agreement, SFL has agreed to receive bareboat hire of (i) approximately \$64,700 per day until Seadrill emerges from Chapter 11 and its plan is confirmed by the court and (ii) thereafter approximately \$60,000 per day while the rig is employed under a contract and generating revenues for Seadrill and approximately \$40,000 in all other modes, including when the rig is idle. Seadrill is expected to seek bankruptcy court approval of the amendment agreement on or before September 2, 2021, which is a condition precedent to the effectiveness to the amendment agreement.

SFL's limited corporate guarantee of the outstanding debt in the rig owning subsidiary will remain unchanged at \$83 million.

While no assurances can be provided with regards to the outcome of Seadrill's Chapter 11 process, the amendment agreement, or Seadrill's plan support agreement, SFL continues to have constructive dialogue with Seadrill regarding the rig West Linus, which is on a sub-charter to an oil major in the North Sea until the end of 2028.

9.2 Administrative, management and supervisory bodies conflicts of interest

Certain of our directors, executive officers and major shareholders may have interests that are different from, or are in addition to, the interests of our other shareholders. In particular, Hemen, Holding Ltd, or Hemen a company indirectly controlled by trusts established by Mr. John Fredriksen, for the benefit of his immediate family, and certain of its affiliates, may be deemed to beneficially own approximately 20.1% of our issued and outstanding common shares as at March 17, 2021. Furthermore, in February 2020, Ms. Kathrine Astrup Fredriksen, who is the daughter of Mr. John Fredriksen, became a Director of the Company. Hemen is also a principal shareholder of a number of other large publicly traded companies involved in various sectors of the shipping and oil services industries, or the Hemen Related Companies. In addition, certain directors, including Mr. Cordia and Mr. O'Shaughnessy, also serve on the boards of one or more of the Hemen Related Companies, including but not limited to Frontline, Golden Ocean, Northern Drilling Ltd, Avance Gas and Archer Limited. There may be real or apparent conflicts of interest with respect to matters affecting Hemen and other Hemen Related Companies whose interests in some

circumstances may be adverse to our interests. To the extent that we do business with or compete with other Hemen Related Companies for business opportunities, prospects or financial resources, or participate in ventures in which other Hemen Related Companies may participate, these directors and officers may face actual or apparent conflicts of interest in connection with decisions that could have different implications for us. These decisions may relate to corporate opportunities, corporate strategies, potential acquisitions of businesses, newbuilding acquisitions, inter-company agreements, the issuance or disposition of securities, the election of new or additional directors and other matters. Such potential conflicts may delay or limit the opportunities available to us, and it is possible that conflicts may be resolved in a manner adverse to us or result in agreements that are less favorable to us than terms that would be obtained in arm's-length negotiations with unaffiliated third-parties.

Other than stated above there are no potential conflicts of interest between any duties to the issuing entity of the persons referred to in item 9.1 and their private interests and/or other duties.

11.3 Legal and arbitration proceedings

In September 2017, Seadrill entered a restructuring plan, whereby the leases were revised, and subsequently entered Chapter 11 proceedings from which it emerged in July 2018. The restructuring involved reducing the charter hire for all three leases in the short term and increasing charter hire in later years, and adjusting the purchase obligation/put option prices and extending the charter term for the leases of West Taurus and West Hercules.

Despite the de-leveraging and improved debt terms, the oil and gas market remained in a sustained downturn after Seadrill emerged from Chapter 11 in summer 2018, even before the further damage caused by the dual demand and supply shock of the COVID-19 pandemic and the OPEC-Russia oil price war. The combination of these external forces prevented Seadrill from reaping the benefits of the prior restructuring, which adversely affected the Seadrill Charterers' ability to secure drilling contracts and, therefore, their ability to make lease payments to us and resulted in the bankruptcy of their parent company Seadrill and most of its subsidiaries.

A significant portion of our net income and operating cash flows have been generated from our three leases with subsidiaries of Seadrill, which disclosed on February 10, 2021 that it and most of its subsidiaries filed Chapter 11 cases in the Southern District of Texas, USA (the "Chapter 11 Proceedings").

In connection with Seadrill's Chapter 11 Proceedings, SFL and certain of its subsidiaries have entered into court approved interim agreements relating to two of the Company's drilling rigs that are chartered to subsidiaries of Seadrill to ensure uninterrupted performance on the sub-charters to oil majors. Pursuant to these agreements, Seadrill will be allowed to use funds received from the respective sub-charterers to pay a fixed level of operating and maintenance expenses in addition to general and administrative costs. In exchange, SFL will receive approximately 65 -75% of the lease hire under the existing charter agreements for West Linus and West Hercules for the same period.

Any excess amounts paid under the above referenced sub-charters will remain in Seadrill's earnings accounts, pledged to SFL.

With regards to the third rig, West Taurus, the lease has been rejected by the court and the rig has been redelivered to SFL. This rig is debt free and has been held in layup by Seadrill for more than five years. The Company has decided to divest of West Taurus for recycling. As previously disclosed, in October 2020, we had agreed with our financing banks to repurchase the bank loan on the idle drilling rig West Taurus, at a discount of 62% of the outstanding balance. The Company repurchased the total debt outstanding under the facility of \$176.1 million for \$110.0 million and recognized a gain on debt extinguishment of \$66.1 million in the year ended December 31, 2020. The rig is now debt free following the full settlement of the loan. In connection with the West Taurus, SFL recorded a net negative book adjustment of approximately \$186.5 million in the fourth quarter of 2020, inclusive of the gain on the redemption of the bank debt.

In the fourth quarter of 2020, we negotiated amended terms for the financing agreement relating to the harsh environment jackup rig West Linus, pursuant to which we will provide a corporate guarantee for the entire outstanding loan amount, in exchange for more flexible financing terms. The rig is employed on a sub-charter by Seadrill to an oil major throughout 2028. The terms of the loan relating to West Hercules remain unchanged.

As previously announced, Seadrill's failure to pay hire under the leases for the Company's drilling rigs when due, along with certain other events, including the commencement of its Chapter 11 Proceedings, constitute events of default under such leases and the related financing agreements. Unless cured or waived, an event of default under a lease agreements or related financing agreements could result in enforcement of the applicable provisions thereunder, including making payments under certain guarantees of the loan facilities relating to our drilling rigs.

The failure of the charterers of our drilling rigs to meet their respective obligations to us under our existing lease agreements, including a rejection of such leases which could lead to a redelivery of all or some the rigs, in the Chapter 11 Proceedings or any material changes to the commercial terms of such agreements, including reductions in the charter rates payable to us, or any material payments that we are required to make under our guarantees or any acceleration of our debt as a result of an event of default thereunder would likely have material adverse effect on our business, financial condition, results of operations and cash flows, ability to pay dividends to our shareholders and compliance with covenants in our credit facilities.

Other than stated above, there has been no governmental, legal or arbitration proceedings (including any such proceedings which are pending or threatened of which the issuer is aware), during a period covering at least the previous 12 months which may have, or have had in the recent past, significant effects on the Issuer and/or Group's financial position or profitability.

11.4 Significant change in the Group's financial position

The Company's lien on a share shall extend to all dividends payable thereon. 19. The Company may sell, in such manner as the Board may think fit, any share on which the Company has a lien but no sale shall be made unless some sum in respect of which the lien exists is presently payable nor until the expiration of fourteen days after a notice in writing, stating and demanding payment of the sum presently payable and giving notice of the intention to sell in default of such payment, has been served on the holder for the time being of the share.
20. The net proceeds of sale by the Company of any shares on which it has a lien shall be applied in or towards payment or discharge of the debt or liability in respect of which the lien exists so far as the same is presently payable, and any residue shall (subject to a like lien for debts or liabilities not presently payable as existed upon the share prior to the sale) be

paid to the holder of the share immediately before such sale. For giving effect to any such sale the Board may authorise some person to transfer the share sold to the purchaser thereof. The purchaser shall be registered as the holder of the share and he shall not be bound to see to the application of the purchase money, nor shall his title to the share be affected by any irregularity or invalidity in the proceedings relating to the sale.

CALLS ON SHARES

21. The Board may from time to time make calls upon the Shareholders in respect of any moneys unpaid on their shares (whether on account of the par value of the shares or by way of premium) and not by the terms of issue thereof made payable at a date fixed by or in accordance with such terms of issue, and each Shareholder shall (subject to the Company serving upon him at least fourteen days notice specifying the time or times and place of payment) pay to the Company at the time or times and place so specified the amount called on his shares. A call may be revoked or postponed as the Board may determine.
22. A call may be made payable by installments and shall be deemed to have been made at the time when the resolution of the Board authorizing the call was passed.
23. The joint holders of a share shall be jointly and severally liable to pay all calls in respect thereof.
24. If a sum called in respect of the share shall not be paid before or on the day appointed for payment thereof the person from whom the sum is due shall pay interest on the sum from the day appointed for the payment thereof to the time of actual payment at such rate as the Board may determine, but the Board shall be at liberty to waive payment of such interest wholly or in part.
25. Any sum which, by the terms of issue of a share, becomes payable on allotment or at any date fixed by or in accordance with such terms of issue, whether on account of the nominal amount of the share or by way of premium, shall for all the purposes of these Bye-laws be deemed to be a call duly made, notified and payable on the date on which, by the terms of issue, the same becomes payable and, in case of non-payment, all the relevant provisions of these Bye-laws as to payment of interest, forfeiture or otherwise shall apply as if such sum had become payable by virtue of a call duly made and notified.
26. The Board may on the issue of shares differentiate between the allottees or holders as to the amount of calls to be paid and the times of payment.

FORFEITURE OF SHARES

27. If a Shareholder fails to pay any call or installment of a call on the day appointed for payment thereof, the Board may at any time thereafter during such time as any part of such call or installment remains unpaid serve a notice on him requiring payment of so much of the call or installment as is unpaid, together with any interest which may have accrued.
28. The notice shall name a further day (not being less than 14 days from the date of the notice) on or before which, and the place where, the payment required by the notice is to be made

and shall state that, in the event of non-payment on or before the day and at the place appointed, the shares in respect of which such call is made or installment is payable will be liable to be forfeited. The Board may accept the surrender of any share liable to be forfeited hereunder and, in such case, references in these Bye-laws to forfeiture shall include surrender.

29. If the requirements of any such notice as aforesaid are not complied with, any share in respect of which such notice has been given may at any time thereafter, before payment of all calls or installments and interest due in respect thereof has been made, be forfeited by a resolution of the Board to that effect. Such forfeiture shall include all dividends declared in respect of the forfeited shares and not actually paid before the forfeiture.
30. When any share has been forfeited, notice of the forfeiture shall be served upon the person who was before forfeiture the holder of the share; but no forfeiture shall be in any manner invalidated by any omission or neglect to give such notice as aforesaid.
31. A forfeited share shall be deemed to be the property of the Company and may be sold, re-offered or otherwise disposed of either to the person who was, before forfeiture, the holder thereof or entitled thereto or to any other person upon such terms and in such manner as the Board shall think fit, and at any time before a sale, re-allotment or disposition the forfeiture may be cancelled on such terms as the Board may think fit.
32. A person whose shares have been forfeited shall thereupon cease to be a Shareholder in respect of the forfeited shares but shall, notwithstanding the forfeiture, remain liable to pay to the Company all moneys which at the date of forfeiture were presently payable by him to the Company in respect of the shares with interest thereon at such rate as the Board may determine from the date of forfeiture until payment, and the Company may enforce payment without being under any obligation to make any allowance for the value of the shares forfeited.
33. An affidavit in writing that the deponent is a Director or the Secretary and that a share has been duly forfeited on the date stated in the affidavit shall be conclusive evidence of the facts therein stated as against all persons claiming to be entitled to the share. The Company may receive the consideration (if any) given for the share on the sale, re-allotment or disposition thereof and the Board may authorise some person to transfer the share to the person to whom the same is sold, re-allotted or disposed of, and he shall thereupon be registered as the holder of the share and shall not be bound to see to the application of the purchase money (if any) nor shall his title to the share be affected by any irregularity or invalidity in the proceedings relating to the forfeiture, sale, re-allotment or disposal of the share.

REGISTER OF SHAREHOLDERS

34. The Secretary shall establish and maintain the Register of Shareholders in the manner prescribed by the Companies Acts. Unless the Board otherwise determines, the Register of Shareholders shall be open to inspection in the manner prescribed by the Companies Acts between 10.00 a.m. and 12.00 noon on every working day. Unless the Board otherwise determines, no Shareholder or intending Shareholder shall be entitled to have entered in the

Register any indication of any trust or any equitable, contingent, future or partial interest in any share or any interest in any fractional part of a share and if any such entry exists or is permitted by the Board it shall not be deemed to abrogate any of the provisions of Bye-law 14.

REGISTER OF DIRECTORS AND OFFICERS

35. The Secretary shall establish and maintain a register of the Directors and Officers of the Company as required by the Companies Acts. The register of Directors and Officers shall be open to inspection in the manner prescribed by the Companies Acts between 10:00 a.m. and 12:00 noon on every working day.

TRANSFER OF SHARES

36. Subject to the Companies Acts and to such of the restrictions contained in these Bye-laws as may be applicable, any Shareholder may transfer all or any of his shares by an instrument of transfer in the usual common form or in any other form which the Board may approve.
37. The instrument of transfer of a share shall be signed by or on behalf of the transferor and where any share is not fully-paid the transferee, and the transferor shall be deemed to remain the holder of the share until the name of the transferee is entered in the Register in respect thereof. All instruments of transfer when registered may be retained by the Company. The Board may, in its absolute discretion and without assigning any reason therefor, decline to register any transfer of any share which is not a fully-paid share.

The Board may also decline to register any transfer unless:-

- (a) the instrument of transfer is duly stamped and lodged with the Company, accompanied by the certificate for the shares to which it relates, and such other evidence as the Board may reasonably require to show the right of the transferor to make the transfer,
- (b) the instrument of transfer is in respect of only one class of share,
- (c) where applicable, the permission of the Bermuda Monetary Authority with respect thereto has been obtained.

Subject to any directions of the Board from time to time in force, the Secretary may exercise the powers and discretions of the Board under this Bye-law and Bye-law 36.

38. If the Board declines to register a transfer it shall, within three months after the date on which the instrument of transfer was lodged, send to the transferee notice of such refusal.
39. No fee shall be charged by the Company for registering any transfer, probate, letters of administration, certificate of death or marriage, power of attorney, distringas or stop notice, order of court or other instrument relating to or affecting the title to any share, or otherwise making an entry in the Register relating to any share.

40. The Company may dispose of or transfer Treasury Shares for cash or other consideration.

TRANSMISSION OF SHARES

41. In the case of the death of a Shareholder, the survivor or survivors, where the deceased was a joint holder, and the estate representative, where he was sole holder, shall be the only person recognised by the Company as having any title to his shares; but nothing herein contained shall release the estate of a deceased holder (whether the sole or joint) from any liability in respect of any share held by him solely or jointly with other persons. For the purpose of this Bye-law, estate representative means the person to whom probate or letters of administration has or have been granted in Bermuda or, failing any such person, such other person as the Board may in its absolute discretion determine to be the person recognised by the Company for the purpose of this Bye-law.
42. Any person becoming entitled to a share in consequence of the death of a Shareholder or otherwise by operation of applicable law may, subject as hereafter provided and upon such evidence being produced as may from time to time be required by the Board as to his entitlement, either be registered himself as the holder of the share or elect to have some person nominated by him registered as the transferee thereof. If the person so becoming entitled elects to be registered himself, he shall deliver or send to the Company a notice in writing signed by him stating that he so elects. If he shall elect to have his nominee registered, he shall signify his election by signing an instrument of transfer of such share in favour of his nominee. All the limitations, restrictions and provisions of these Bye-laws relating to the right to transfer and the registration of transfer of shares shall be applicable to any such notice or instrument of transfer as aforesaid as if the death of the Shareholder or other event giving rise to the transmission had not occurred and the notice or instrument of transfer was an instrument of transfer signed by such Shareholder.
43. A person becoming entitled to a share in consequence of the death of a Shareholder or otherwise by operation of applicable law shall (upon such evidence being produced as may from time to time be required by the Board as to his entitlement) be entitled to receive and may give a discharge for any dividends or other moneys payable in respect of the share, but he shall not be entitled in respect of the share to receive notices of or to attend or vote at general meetings of the Company or, save as aforesaid, to exercise in respect of the share any of the rights or privileges of a Shareholder until he shall have become registered as the holder thereof. The Board may at any time give notice requiring such person to elect either to be registered himself or to transfer the share and if the notice is not complied with within sixty days the Board may thereafter withhold payment of all dividends and other moneys payable in respect of the shares until the requirements of the notice have been complied with.
44. Subject to any directions of the Board from time to time in force, the Secretary may exercise the powers and discretions of the Board under Bye-laws 36, 37 and 38.

45. The Company may from time to time increase its capital by such sum to be divided into shares of such par value as the Company by Resolution shall prescribe.

46. The Company may, by the Resolution increasing the capital, direct that the new shares or any of them shall be offered in the first instance either at par or at a premium or (subject to the provisions of the Companies Acts) at a discount to all the holders for the time being of shares of any class or classes in proportion to the number of such shares held by them respectively or make any other provision as to the issue of the new shares.
47. The new shares shall be subject to all the provisions of these Bye-laws with reference to lien, the payment of calls, forfeiture, transfer, transmission and otherwise.

ALTERATION OF CAPITAL

48. The Company may from time to time by Resolution:-
- (a) increase its capital as provided by Bye-Law 45.

 - (c) consolidate and divide all or any of its share capital into shares of larger par value than its existing shares;
 - (d) sub-divide its shares or any of them into shares of smaller par value than is fixed by its memorandum, so, however, that in the sub-division the proportion between the amount paid and the amount, if any, unpaid on each reduced share shall be the same as it was in the case of the share from which the reduced share is derived;
 - (e) make provision for the issue and allotment of shares which do not carry any voting rights;
 - (f) cancel shares which, at the date of the passing of the Resolution in that behalf, have not been taken or agreed to be taken by any person, and diminish the amount of its share capital by the amount of the shares so cancelled; and
 - (g) change the currency denomination of its share capital.

Where any difficulty arises in regard to any division, consolidation, or sub-division under this Bye-law, the Board may settle the same as it thinks expedient and, in particular, may arrange for the sale of the shares representing fractions and the distribution of the net proceeds of sale in due proportion amongst the Shareholders who would have been entitled to the fractions, and for this purpose the Board may authorise some person to transfer the shares representing fractions to the purchaser thereof, who shall not be bound to see to the application of the purchase money nor shall his title to the shares be affected by any irregularity or invalidity in the proceedings relating to the sale.

49. Subject to the Companies Acts and to any confirmation or consent required by law or these Bye-laws, the Company may by Resolution from time to time convert any preference shares into redeemable preference shares.

REDUCTION OF CAPITAL

50. Subject to the Companies Acts, its memorandum and any confirmation or consent required by law or these Bye-laws, the Company may from time to time by Resolution authorise the reduction of its issued share capital or any capital redemption reserve fund or any share premium or contributed surplus account in any manner.
51. In relation to any such reduction, the Company may by Resolution determine the terms upon which such reduction is to be effected including in the case of a reduction of part only of a class of shares, those shares to be affected.

GENERAL MEETINGS AND WRITTEN RESOLUTIONS

52. (a) The Board shall convene and the Company shall hold general meetings as Annual General Meetings in accordance with the requirements of the Companies Acts at such times and places as the Board shall appoint. The Board may, whenever it thinks fit, and shall, when required by the Companies Acts, convene general meetings other than Annual General Meetings which shall be called Special General Meetings. Any such Annual or Special General Meeting shall be held at the Registered Office of the Company in Bermuda or such other location suitable for such purpose and in no event shall any such Annual or Special General Meeting be held in Norway or the United Kingdom.
- (b) Except in the case of the removal of auditors and Directors, anything which may be done by resolution of the Company in general meeting or by resolution of a meeting of any class of the Shareholders of the Company may, without a meeting and without any previous notice being required, be done by resolution in writing, signed by a simple majority of all of the Shareholders (or such greater majority as is required by the Companies Acts or these Bye-Laws) or their proxies, or in the case of a Shareholder that is a corporation (whether or not a company within the meaning of the Companies Acts) on behalf of such Shareholder, being all of the Shareholders of the Company who at the date of the resolution in writing would be entitled to attend a meeting and vote on the resolution. Such resolution in writing may be signed by, or in the case of a Shareholder that is a corporation (whether or not a company within the meaning of the Companies Acts), on behalf of, all the Shareholders of the Company, or any class thereof, in as many counterparts as may be necessary.
- (c) A resolution in writing is passed when the resolution is signed by, or in the case of a Shareholder that is a corporation (whether or not a company within the meaning of the Companies Acts), on behalf of such number of the Shareholders of the Company who at the date of the notice represent a majority of votes as would be required if the resolution had been voted on at a meeting of the Shareholders.
- (d) A resolution in writing made in accordance with this Bye-law is as valid as if it had been passed by the Company in general meeting or, if applicable, by a meeting of the relevant class of Shareholders of the Company, as the case may be. A resolution in

writing made in accordance with this Bye-law shall constitute minutes for the purposes of the Companies Acts and these Bye-laws.

- (e) Notice of any resolution to be made pursuant to Bye-Law 52 (b) shall be given, and a copy of the resolution shall be circulated, to all members who would be entitled to attend a meeting and vote on the resolution in the same manner as that required for a notice of a meeting of members at which the resolution could have been considered except that any requirement in the Companies Acts or these Bye-Laws as to the length of period of notice shall not apply.

NOTICE OF GENERAL MEETINGS

- 53. An Annual General Meeting shall be called by not less than 5 days notice in writing and a Special General Meeting shall be called by not less than 5 days notice in writing. The notice shall be exclusive of the day on which it is served or deemed to be served and of the day for which it is given, and shall specify the place, day and time of the meeting, and, in the case of a Special General Meeting, the general nature of the business to be considered. Notice of every general meeting shall be given in any manner permitted by these Bye-laws to all Shareholders other than such as, under the provisions of these Bye-laws or the terms of issue of the shares they hold, are not entitled to receive such notice from the Company.

Notwithstanding that a meeting of the Company is called by shorter notice than that specified in this Bye-law, it shall be deemed to have been duly called if it is so agreed:-

- (a) in the case of a meeting called as an Annual General Meeting, by all the Shareholders entitled to attend and vote thereat;
- (b) in the case of any other meeting, by a majority in number of the Shareholders having the right to attend and vote at the meeting, being a majority together holding not less than 95 percent in nominal value of the shares giving that right;

provided that notwithstanding any provision of these Bye-Laws, no Shareholder shall be entitled to attend any general meeting unless notice in writing of the intention to attend and vote in person or by proxy signed by or on behalf of the Shareholder (together with the power of attorney or other authority, if any, under which it is signed or a notarially certified copy thereof) addressed to the Secretary is deposited (by post, courier, facsimile transmission or other electronic means) at the Registered Office at least 48 hours before the time appointed for holding the general meeting or adjournment thereof.

- 54. The accidental omission to give notice of a meeting or (in cases where instruments of proxy are sent out with the notice) the accidental omission to send such instrument of proxy to, or the non-receipt of notice of a meeting or such instrument of proxy by, any person entitled to receive such notice shall not invalidate the proceedings at that meeting.

PROCEEDINGS AT GENERAL MEETINGS

55. No business shall be transacted at any general meeting unless a quorum is present when the meeting proceeds to business, but the absence of a quorum shall not preclude the appointment, choice or election of a chairman, which shall not be treated a part of the business of the meeting. Save as otherwise provided by these Bye-laws, at least two Members present in person or by proxy and entitled to vote (whatever the number of shares held by them) shall be a quorum for all purposes.
56. If within five minutes (or such longer time as the chairman of the meeting may determine to wait) after the time appointed for the meeting, a quorum is not present, the meeting, if convened on the requisition of Shareholders, shall be dissolved. In any other case, it shall stand adjourned to such other day and such other time and place as the chairman of the meeting may determine and at such adjourned meeting two Shareholders present in person or by proxy (whatever the number of shares held by them) shall be a quorum provided that if the Company shall have only one Shareholder, one Shareholder present in person or by proxy shall constitute the necessary quorum. The Company shall give not less than 5 days notice of any meeting adjourned through want of a quorum and such notice shall state that the sole Shareholder or, if more than one, two Shareholders present in person or by proxy (whatever the number of shares held by them) shall be a quorum.
57. A meeting of the Shareholders or any class thereof may be held by means of such telephone, electronic or other communication facilities as permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously and participation in such a meeting shall constitute presence in person at such meeting.
58. Each Director shall be entitled to attend and speak at any general meeting of the Company.
59. The Chairman (if any) of the Board or, in his absence, the President shall preside as chairman at every general meeting. If there is no such Chairman or President, or if at any meeting neither the Chairman nor the President is present within five minutes after the time appointed for holding the meeting, or if neither of them is willing to act as chairman, the Directors present shall choose one of their number to act or if one Director only is present he shall preside as chairman if willing to act. If no Director is present, or if each of the Directors present declines to take the chair, the persons present and entitled to vote on a poll shall elect one of their number to be chairman.
60. The chairman of the meeting may, with the consent of any meeting at which a quorum is present (and shall if so directed by the meeting), adjourn the meeting from time to time and from place to place but no business shall be transacted at any adjourned meeting except business which might lawfully have been transacted at the meeting from which the adjournment took place. When a meeting is adjourned for three months or more, notice of the adjourned meeting shall be given as in the case of an original meeting.
61. Save as expressly provided by these Bye-laws, it shall not be necessary to give any notice of an adjournment or of the business to be transacted at an adjourned meeting.

VOTING

62. Save where a greater majority is required by the Companies Acts or these Bye-laws, any question proposed for consideration at any general meeting shall be decided on by a simple majority of votes cast.
63. At any general meeting, a resolution put to the vote of the meeting shall be decided on a show of hands or by a count of votes received in the form of electronic records unless (before or on the declaration of the result of the show of hands or on the withdrawal of any other demand for a poll) a poll is demanded by:-
- (a) the chairman of the meeting; or
 - (b) at least three Shareholders present in person or represented by proxy; or
 - (c) any Shareholder or Shareholders present in person or represented by proxy and holding between them not less than one tenth of the total voting rights of all the Shareholders having the right to vote at such meeting; or
 - (d) a Shareholder or Shareholders present in person or represented by proxy holding shares conferring the right to vote at such meeting, being shares on which an aggregate sum has been paid up equal to not less than one tenth of the total sum paid up on all such shares conferring such right.

Unless a poll is so demanded and the demand is not withdrawn, a declaration by the chairman that a resolution has, on a show of hands, or on a count of votes received in the form of electronic records, been carried or carried unanimously or by a particular majority or not carried by a particular majority or lost shall be final and conclusive, and an entry to that effect in the minute book of the Company shall be conclusive evidence of the fact without proof of the number of votes recorded for or against such resolution.

64. If a poll is duly demanded, the result of the poll shall be deemed to be the resolution of the meeting at which the poll is demanded.
65. A poll demanded on the election of a chairman, or on a question of adjournment, shall be taken forthwith. A poll demanded on any other question shall be taken in such manner and either forthwith or at such time (being not later than three months after the date of the demand) and place as the chairman shall direct. It shall not be necessary (unless the chairman otherwise directs) for notice to be given of a poll.
66. The demand for a poll shall not prevent the continuance of a meeting for the transaction of any business other than the question on which the poll has been demanded and it may be withdrawn at any time before the close of the meeting or the taking of the poll, whichever is the earlier.
67. On a poll, votes may be cast either personally or by proxy.

68. A person entitled to more than one vote on a poll need not use all his votes or cast all the votes he uses in the same way.
69. In the case of an equality of votes at a general meeting, whether on a show of hands, a count of votes received in the form of electronic records or on a poll, the chairman of such meeting shall not be entitled to a second or casting vote.
70. In the case of joint holders of a share, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other joint holders, and for this purpose seniority shall be determined by the order in which the names stand in the Register in respect of the joint holding.
71. A Shareholder who is a patient for any purpose of any statute or applicable law relating to mental health or in respect of whom an order has been made by any Court having jurisdiction for the protection or management of the affairs of persons incapable of managing their own affairs may vote, whether on a show of hands or on a poll, by his receiver, committee, curator bonis or other person in the nature of a receiver, committee or curator bonis appointed by such Court and such receiver, committee, curator bonis or other person may vote on a poll by proxy, and may otherwise act and be treated as such Shareholder for the purpose of general meetings.
72. No Shareholder shall, unless the Board otherwise determines, be entitled to vote at any general meeting unless all calls or other sums presently payable by him in respect of shares in the Company have been paid.
73. If (i) any objection shall be raised to the qualification of any voter or (ii) any votes have been counted which ought not to have been counted or which might have been rejected or (iii) any votes are not counted which ought to have been counted, the objection or error shall not vitiate the decision of the meeting or adjourned meeting on any resolution unless the same is raised or pointed out at the meeting or, as the case may be, the adjourned meeting at which the vote objected to is given or tendered or at which the error occurs. Any objection or error shall be referred to the chairman of the meeting and shall only vitiate the decision of the meeting on any resolution if the chairman decides that the same may have affected the decision of the meeting. The decision of the chairman on such matters shall be final and conclusive.

PROXIES AND CORPORATE REPRESENTATIVES

74. The instrument appointing a proxy shall be in writing under the hand of the appointor or of his attorney authorised by him in writing or, if the appointor is a corporation, either under its seal or under the hand of an officer, attorney or other person authorised to sign the same.
75. Any Shareholder may appoint a standing proxy or (if a corporation) representative by depositing at the Registered Office a proxy or (if a corporation) an authorisation and such proxy or authorisation shall be valid for all general meetings and adjournments thereof or, resolutions in writing, as the case may be, until notice of revocation is received at the Registered Office which, if permitted by the Principal Act, may be in the form of an electronic record. Where a standing proxy or authorisation exists, its operation shall be

deemed to have been suspended at any general meeting or adjournment thereof at which the Shareholder is present or in respect to which the Shareholder has specially appointed a proxy or representative. The Board may from time to time require such evidence as it shall deem necessary as to the due execution and continuing validity of any such standing proxy or authorisation and the operation of any such standing proxy or authorisation shall be deemed to be suspended until such time as the Board determines that it has received the requested evidence or other evidence satisfactory to it.

76. Subject to Bye-law 75, the instrument appointing a proxy together with such other evidence as to its due execution as the Board may from time to time require, shall be delivered at the Registered Office, which, if permitted by the Principal Act may be in the form of an electronic record, (or at such place as may be specified in the notice convening the meeting or in any notice of any adjournment or, in either case or the case of a written resolution, in any document sent therewith) prior to the holding of the relevant meeting or adjourned meeting at which the person named in the instrument proposes to vote or, in the case of a poll taken subsequently to the date of a meeting or adjourned meeting, before the time appointed for the taking of the poll, or, in the case of a written resolution, prior to the effective date of the written resolution and in default the instrument of proxy shall not be treated as valid.
77. Instruments of proxy shall be in any common form or in such other form as the Board may approve and the Board may, if it thinks fit, send out with the notice of any meeting or any written resolution forms of instruments of proxy for use at that meeting or in connection with that written resolution. The instrument of proxy shall be deemed to confer authority to demand or join in demanding a poll and to vote on any amendment of a written resolution or amendment of a resolution put to the meeting for which it is given as the proxy thinks fit. The instrument of proxy shall unless the contrary is stated therein be valid as well for any adjournment of the meeting as for the meeting to which it relates.
78. A vote given in accordance with the terms of an instrument of proxy shall be valid notwithstanding the previous death or insanity of the principal, or revocation of the instrument of proxy or of the authority under which it was executed, provided that no intimation in writing of such death, insanity or revocation shall have been received by the Company at the Registered Office, which, if permitted by the Principal Act may be in the form of an electronic record, (or such other place as may be specified for the delivery of instruments of proxy in the notice convening the meeting or other documents sent therewith) one hour at least before the commencement of the meeting or adjourned meeting, or the taking of the poll, or the day before the effective date of any written resolution at which the instrument of proxy is used.
79. Subject to the Companies Acts, the Board may at its discretion waive any of the provisions of these Bye-laws related to proxies or authorisations and, in particular, may accept such verbal or other assurances as it thinks fit as to the right of any person to attend and vote on behalf of any Shareholder at general meetings or to sign written resolutions.
80. Notwithstanding any other provision of these Bye-laws, any member may appoint an irrevocable proxy by depositing at the Registered Office an irrevocable proxy and such irrevocable proxy shall be valid for all general meetings and adjournments thereof, or

resolutions in writing, as the case may be, until terminated in accordance with its own terms, or until written notice of termination is received at the Registered Office signed by the proxy. The instrument creating the irrevocable proxy shall recite that it is constituted as such and shall confirm that it is granted with an interest. The operation of an irrevocable proxy shall not be suspended at any general meeting or adjournment thereof at which the member who has appointed such proxy is present and the member may not specifically appoint another proxy or vote himself in respect of any shares which are the subject of the irrevocable proxy.

The Board of Directors shall include at least one Independent Director. If an Independent Director resigns, dies, or becomes incapacitated, or such position is otherwise vacant, and there are no other Independent Directors, no action requiring affirmative vote of the Independent Directors shall be taken until a successor Independent Director is elected and qualified and approves such action. A successor Independent Director shall be appointed by the remaining directors on the Board. 83. The Company may in a Special General Meeting called for that purpose remove a Director provided notice of any such meeting shall be served upon the Director concerned not less than 14 days before the meeting and he shall be entitled to be heard at that meeting. Any vacancy created by the removal of a Director at a Special General Meeting may be filled at the Meeting by the election of another Director in his place or, in the absence of any such election, by the Board.

Any Alternate Director may be removed by Resolution of the Company and, if appointed by the Board, may be removed by the Board. Subject as aforesaid, the office of Alternate Director shall continue until the next annual election of Directors or, if earlier, the date on which the relevant Director ceases to be a Director. An Alternate Director may also be a Director in his own right and may act as alternate to more than one Director. No resident of the United Kingdom and no person who is physically located in the United Kingdom during a meeting of the Board may be elected or appointed as an Alternate Director.
- 86. An Alternate Director shall be entitled to receive notices of all meetings of Directors, to attend, be counted in the quorum and vote at any such meeting at which any Director to whom he is alternate is not personally present, and generally to perform all the functions of any Director to whom he is alternate in his absence.

An Alternate Director may be paid expenses and shall be entitled to be indemnified by the Company to the same extent mutatis mutandis as if he were a Director. Every person acting as an Alternate Director shall have one vote for each Director for whom he acts as alternate (in addition to his own vote if he is also a Director). The signature of an Alternate Director to any resolution in writing of the Board or a committee of the Board shall, unless the terms of his appointment provides to the contrary, be as effective as the signature of the Director or Directors to whom he is alternate.

88. The amount, if any, of Directors' fees shall from time to time be determined by the Company by Resolution and in the absence of a determination to the contrary in general meeting, such fees shall be deemed to accrue from day to day. Each Director may be paid his reasonable travelling, hotel and incidental expenses in attending and returning from meetings of the Board or committees constituted pursuant to these Bye-laws or general meetings and shall be paid all expenses properly and reasonably incurred by him in the conduct of the Company's business or in the discharge of his duties as a Director. The Board shall manage the business of the Company in accordance with the requirements and limitations contained in Bye-laws 91(A) and 91(B) and in the event of any conflict between Bye-laws 91(A) and 91(B) and any other Bye-law, the provisions of Bye-laws 91(A) and 91(B) shall prevail. Subject to the provisions of the Companies Acts and to Bye-laws 91(A) and 91(B) and these Bye-laws and to any directions given by the Company by Resolution, responsibility for the management of the Company shall be vested in the Board of Directors. The Board may pay all expenses incurred in promoting and incorporating the Company and may exercise all the powers of the Company. No alteration of these Bye-laws and no direction given pursuant to Bye-laws 91(A) and 91(B) shall invalidate any prior act of the Board which would have been valid if that alteration had not been made or that direction had not been given. The powers given by this Bye-law shall not be limited by any special power given to the Board by these Bye-laws and a meeting of the Board at which a quorum is present shall be competent to exercise all the powers, authorities and discretions for the time being vested in or exercisable by the Board.

Any person so appointed shall receive such remuneration (if any) (whether by way of salary, commission, participation in profits or otherwise) as the Board may determine, and either in addition to or in lieu of his remuneration as a Director.

DELEGATION OF THE BOARD'S POWERS

96. The Board may by power of attorney appoint any company, firm or person or any fluctuating body of persons, whether nominated directly or indirectly by the Board, to be the attorney or attorneys of the Company for such purposes and with such powers, authorities and discretions (not exceeding those vested in or exercisable by the Board under these By-laws) and for such period and subject to such conditions as it may think fit, and any such power of attorney may contain such provisions for the protection and convenience of persons dealing with any such attorney and of such attorney as the Board may think fit, and may also authorise any such attorney to sub-delegate all or any of the powers, authorities and discretions vested in him.
97. The Board may entrust to and confer upon any Director or officer any of the powers exercisable by it upon such terms and conditions with such restrictions as it thinks fit, and either collaterally with, or to the exclusion of, its own powers, and may from time to time revoke or vary all or any of such powers but no person dealing in good faith and without notice of such revocation or variation shall be affected thereby.
98. The Board may delegate any of its powers, authorities and discretions to any person or to committees, consisting of such person or persons (whether a member or members of its

A Director may, and the Secretary on the requisition of a Director shall, at any time summon a meeting of the Board. Notwithstanding anything to the contrary contained in these Bye-laws, the prior approval of a resolution passed by a majority of Directors (which majority shall include the approval of a majority of the Independent Directors) or a unanimous written resolution of the Directors (which shall include the approval of the Independent Directors) shall be required in the following circumstances (a) to file a bankruptcy or insolvency petition or otherwise institute insolvency proceedings on behalf of the Company, (b) to consent to the institution of bankruptcy or insolvency proceedings against the Company, (c) to enter into any agreement or other arrangement conferring any authority or other entitlement on any person to appoint a receiver, liquidator, assignee, trustee, sequestrator (or other similar official) of the Company or a substantial part of the property of the Company, (d) to make any assignment for the benefit of the Company's creditors, (e) to propose, or consent to, a scheme of arrangement with creditors or shareholders; (f) to cause the Company to admit in writing its inability to pay its debts generally as they become due, (g) to dissolve, liquidate, consolidate, merge or sell all or substantially all of the assets of the Company; (h) to engage in any business activity other than the business purpose of the Company described in Bye-laws 91(A) and 91(B), (i) to amend the Company's Memorandum of Association or these Bye-laws, or (j) to take any action, or cause the Company to take any action, in furtherance of any of the foregoing.
100. Notice of a meeting of the Board shall be deemed to be duly given to a Director if it is sent to him by post, cable, telex, telecopier, electronic means or other mode of representing or reproducing words in a legible and non-transitory form at his last known address or any other address given by him to the Company for this purpose. Written notice of Board meetings shall be given with reasonable notice being not less than 24 hours whenever practicable. A Director may waive notice of any meeting either prospectively or retrospectively.
101. (a) The quorum necessary for the transaction of the business of the Board may be fixed by the Board and, unless so fixed at any other number, shall be two individuals, provided that a quorum shall not be present unless a majority of the Directors present are neither physically located in or resident in the United Kingdom. Any Director who ceases to be a Director at a meeting of the Board may continue to be present and to act as a Director and be counted in the quorum until the termination of the meeting if no other Director objects and if otherwise a quorum of Directors would not be present.

- (b) A Director who to his knowledge is in any way, whether directly or indirectly, interested in a contract or proposed contract, transaction or arrangement with the Company and has complied with the provisions of the Companies Acts and these Bye-laws with regard to disclosure of his interest shall be entitled to vote in respect of any contract, transaction or arrangement in which he is so interested and if he shall do so his vote shall be counted, and he shall be taken into account in ascertaining whether a quorum is present.
102. So long as a quorum of Directors remains in office, the continuing Directors may act notwithstanding any vacancy in the Board but, if no such quorum remains, the continuing Directors or a sole continuing Director may act only for the purpose of calling a general meeting.
103. The Chairman (if any) of the Board or, in his absence, the President shall preside as chairman at every meeting of the Board. If there is no such Chairman or President, or if at any meeting the Chairman or the President is not present within five minutes after the time appointed for holding the meeting, or is not willing to act as chairman, the Directors present may choose one of their number to be chairman of the meeting.
104. The meetings and proceedings of any committee consisting of two or more members shall be governed by the provisions contained in these Bye-laws for regulating the meetings and proceedings of the Board so far as the same are applicable and are not superseded by any regulations imposed by the Board.
105. A resolution in writing signed by all the Directors for the time being entitled to receive notice of a meeting of the Board or by all the members of a committee for the time being shall be as valid and effectual as a resolution passed at a meeting of the Board or, as the case may be, of such committee duly called and constituted provided that no such resolution shall be valid and effective unless the signatures of all such directors or all such committee members are affixed outside the United Kingdom. Such resolution may be contained in one document or in several documents in the like form each signed by one or more of the Directors (or their Alternate Directors) or members of the committee concerned.
106. A meeting of the Board or a committee appointed by the Board may be held by means of such telephone, electronic or other communication facilities as permit all persons participating in the meeting to communicate with each other simultaneously and instantaneously and participation in such a meeting shall constitute presence in person at such meeting. A meeting of the Board or committee appointed by the Board held in the foregoing manner shall be deemed to take place at the place where the largest group of participating Directors or committee members has assembled or, if no such group exists, at the place where the chairman of the meeting participates which place shall, so far as reasonably practicable, be at the Registered Office of the Company or at an office of one of the group of companies of which the Company is a part, located outside of the United Kingdom. In no event shall the place where the largest group of participating Directors or committee members has assembled or, if no such group exists, the place where the chairman of the meeting participates, be located in the United Kingdom.

107. All acts done by the Board or by any committee or by any person acting as a Director or member of a committee or any person duly authorised by the Board or any committee, shall, notwithstanding that it is afterwards discovered that there was some defect in the appointment of any member of the Board or such committee or person acting as aforesaid or that they or any of them were disqualified or had vacated their office, be as valid as if every such person had been duly appointed and was qualified and had continued to be a Director, member of such committee or person so authorised.

OFFICERS

108. The Board may appoint any person whether or not he is a Director to hold such office as the Board may from time to time determine. Any person elected or appointed pursuant to this Bye-law shall hold office for such period and upon such terms as the Board may determine and the Board may revoke or terminate any such election or appointment. Any such revocation or termination shall be without prejudice to any claim for damages that such officer may have against the Company or the Company may have against such officer for any breach of any contract of service between him and the Company which may be involved in such revocation or termination. Save as provided in the Companies Acts or these Bye-laws, the powers and duties of the officers of the Company shall be such (if any) as are determined from time to time by the Board.

SECRETARY AND RESIDENT REPRESENTATIVE

110. The Secretary and Resident Representative, if necessary, shall be appointed by the Board at such remuneration (if any) and upon such terms as it may think fit and any Secretary and Resident Representative so appointed may be removed by the Board.

The duties of the Secretary and Resident Representative shall be those prescribed by the Companies Acts together with such other duties as shall from time to time be prescribed by the Board.

111. A provision of the Companies Acts or these Bye-laws requiring or authorising a thing to be done by or to a Director and the Secretary shall not be satisfied by its being done by or to the same person acting both as Director and as, or in the place of, the Secretary.

THE SEAL

112. The Company may, but need not, have a Seal and one or more duplicate Seals for use in any place outside of Bermuda.
113. If the Company has a Seal:
- (a) The seal of the Company shall be in such form as the Board may determine.
 - (b) The seal of the Company shall not be affixed to any instrument except attested by the signature of a Director and the Secretary or any two Directors, or any person appointed by the Board for that purpose, provided that any Director, Officer or Resident Representative, may affix the seal of the Company attested by such Director, Officer or Resident Representative's signature to any authenticated copies of these Bye-Laws, the incorporating documents of the Company, the minutes of any meetings or any other documents required to be authenticated by such Director, Officer or Resident Representative.
114. The Secretary, a Director or the Resident Representative may affix a Seal attested with his signature to certify the authenticity of any copies of documents.

DIVIDENDS AND OTHER PAYMENTS

115. The Board may from time to time declare cash dividends or distributions out of contributed surplus to be paid to the Shareholders according to their rights and interests including such interim dividends as appear to the Board to be justified by the position of the Company. The Board may also pay any fixed cash dividend which is payable on any shares of the Company half yearly or on such other dates, whenever the position of the Company, in the opinion of the Board, justifies such payment.
116. Except insofar as the rights attaching to, or the terms of issue of, any share otherwise provide:-
- (a) all dividends or distributions out of contributed surplus may be declared and paid according to the amounts paid up on the shares in respect of which the dividend or distribution is paid, and an amount paid up on a share in advance of calls may be treated for the purpose of this Bye-law as paid-up on the share;
 - (b) dividends or distributions out of contributed surplus may be apportioned and paid pro rata according to the amounts paid-up on the shares during any portion or portions of the period in respect of which the dividend or distribution is paid.
117. The Board may deduct from any dividend, distribution or other moneys payable to a Shareholder by the Company on or in respect of any shares all sums of money (if any)

presently payable by him to the Company on account of calls or otherwise in respect of shares of the Company.

118. No dividend, distribution or other moneys payable by the Company on or in respect of any share shall bear interest against the Company.
119. Any dividend, distribution, interest or other sum payable in cash to the holder of shares may be paid by cheque or warrant sent through the post addressed to the holder at his address in the Register or, in the case of joint holders, addressed to the holder whose name stands first in the Register in respect of the shares at his registered address as appearing in the Register or addressed to such person at such address as the holder or joint holders may in writing direct. Every such cheque or warrant shall, unless the holder or joint holders otherwise direct, be made payable to the order of the holder or, in the case of joint holders, to the order of the holder whose name stands first in the Register in respect of such shares, and shall be sent at his or their risk and payment of the cheque or warrant by the bank on which it is drawn shall constitute a good discharge to the Company. Any one of two or more joint holders may give effectual receipts for any dividends, distributions or other moneys payable or property distributable in respect of the shares held by such joint holders.
120. Any dividend or distribution out of contributed surplus unclaimed for a period of six years from the date of declaration of such dividend or distribution shall be forfeited and shall revert to the Company and the payment by the Board of any unclaimed dividend, distribution, interest or other sum payable on or in respect of the share into a separate account shall not constitute the Company a trustee in respect thereof.
121. With the sanction of a Resolution the Board may direct payment or satisfaction of any dividend or distribution out of contributed surplus wholly or in part by the distribution of specific assets, and in particular of paid-up shares or debentures of any other company, and where any difficulty arises in regard to such distribution or dividend the Board may settle it as it thinks expedient, and in particular, may authorise any person to sell and transfer any fractions or may ignore fractions altogether, and may fix the value for distribution or dividend purposes of any such specific assets and may determine that cash payments shall be made to any Shareholders upon the footing of the values so fixed in order to secure equality of distribution and may vest any such specific assets in trustees as may seem expedient to the Board.

RESERVES

122. The Board may, before recommending or declaring any dividend or distribution out of contributed surplus, set aside such sums as it thinks proper as reserves which shall, at the discretion of the Board, be applicable for any purpose of the Company and pending such application may, also at such discretion, either be employed in the business of the Company or be invested in such investments as the Board may from time to time think fit. The Board may also without placing the same to reserve carry forward any sums which it may think it prudent not to distribute.

CAPITALISATION OF PROFITS

123. The Company may, upon the recommendation of the Board, at any time and from time to time pass a Resolution to the effect that it is desirable to capitalise all or any part of any amount for the time being standing to the credit of any reserve or fund which is available for distribution or to the credit of any share premium account or any capital redemption reserve fund and accordingly that such amount be set free for distribution amongst the Shareholders or any class of Shareholders who would be entitled thereto if distributed by way of dividend and in the same proportions, on the footing that the same be not paid in cash but be applied either in or towards paying up amounts for the time being unpaid on any shares in the Company held by such Shareholders respectively or in payment up in full of unissued shares, debentures or other obligations of the Company, to be allotted and distributed credited as fully paid amongst such Shareholders, or partly in one way and partly in the other, and the Board shall give effect to such Resolution, provided that for the purpose of this Bye-law, a share premium account and a capital redemption reserve fund may be applied only in paying up of unissued shares to be issued to such Shareholders credited as fully paid and provided further that any sum standing to the credit of a share premium account may only be applied in crediting as fully paid shares of the same class as that from which the relevant share premium was derived.
124. Where any difficulty arises in regard to any distribution under the last preceding Bye-law, the Board may settle the same as it thinks expedient and, in particular, may authorise any person to sell and transfer any fractions or may resolve that the distribution should be as nearly as may be practicable in the correct proportion but not exactly so or may ignore fractions altogether, and may determine that cash payments should be made to any Shareholders in order to adjust the rights of all parties, as may seem expedient to the Board. The Board may appoint any person to sign on behalf of the persons entitled to participate in the distribution any contract necessary or desirable for giving effect thereto and such appointment shall be effective and binding upon the Shareholders.

RECORD DATES

125. Notwithstanding any other provisions of these Bye-laws, the Company may by Resolution or the Board may fix any date as the record date for any dividend, distribution, allotment or issue and for the purpose of identifying the persons entitled to receive notices of general meetings. Any such record date may be on or at any time before or after any date on which such dividend, distribution, allotment or issue is declared, paid or made or such notice is dispatched.

No Shareholder (other than an officer of the Company) shall have any right to inspect any accounting record or book or document of the Company except as conferred by law or authorised by the Board or by Resolution.

128. A copy of every balance sheet and statement of income and expenditure, including every document required by law to be annexed thereto, which is to be laid before the Company in general meeting, together with a copy of the auditors' report, shall be sent to each person entitled thereto in accordance with the requirements of the Companies Acts and (without prejudice to the generality of Bye-Law 139) upon the coming into force of Section 2A of the Principal Act, the requirements of this Bye-Law shall be met by the publication of the relevant document as an electronic record on a website designated for the purpose by the Company.

129. SERVICE OF NOTICES AND OTHER DOCUMENTS

130. Any notice or other document (including a share certificate) may be served on or delivered to any Shareholder by the Company either personally or by sending it through the post (by airmail where applicable) in a pre-paid letter addressed to such Shareholder at his address as appearing in the Register or by delivering it to or leaving it at such registered address. In the case of joint holders of a share, service or delivery of any notice or other document on or to one of the joint holders shall for all purposes be deemed as sufficient service on or delivery to all the joint holders. Any notice or other document if sent by post shall be deemed to have been served or delivered seven days after it was put in the post, and in proving such service or delivery, it shall be sufficient to prove that the notice or document was properly addressed, stamped and put in the post.
131. Any such notice shall be deemed to have been served twenty-four hours after its dispatch.
132. Upon Section 2A of the Principal Act coming into force, any notice or other document shall be deemed to be duly given to a Shareholder if it is delivered to such Shareholder by means of an electronic record in accordance with Section 2A of the Principal Act.
133. Any notice or other document delivered, sent or given to a Shareholder in any manner permitted by these Bye-laws shall, notwithstanding that such Shareholder is then dead or bankrupt or that any other event has occurred, and whether or not the Company has notice

of the death or bankruptcy or other event, be deemed to have been duly served or delivered in respect of any share registered in the name of such Shareholder as sole or joint holder unless his name shall, at the time of the service or delivery of the notice or document, have been removed from the Register as the holder of the share, and such service or delivery shall for all purposes be deemed as sufficient service or delivery of such notice or document on all persons interested (whether jointly with or as claiming through or under him) in the share.

134. Notwithstanding any other provisions of these Bye-laws:

- (a) where there is a requirement under the Companies Acts or these Bye-laws that the Company provide a document to a person, or for a document to accompany another document, the requirement may be met by the delivery, or deemed delivery, of an electronic record of the document in accordance with this Bye-law;
- (b) where there is a requirement under the Companies Acts or these Bye-laws that a Shareholder provide a document to the Company, or for a document to accompany another document, the requirement may be met by the Shareholder by the delivery, or deemed delivery, of an electronic record of the document in accordance with this Bye-law;
- (c) for the purposes of this Bye-law, "to provide" includes to send, forward, give, deliver, submit, file, deposit, furnish, issue, leave at, serve, circulate, lay, make available or lodge;
- (d) an electronic record or a document may be delivered to a person by communicating it by electronic means to the person at the address or number that has been notified by the person for the purposes of communication by electronic means;
- (e) an electronic record of a document is deemed to have been delivered to a person if it is published on a website and:
 - (i) the person to whom the document is provided has agreed to have documents of that type provided by way of accessing them on a website instead of them being provided by other means;
 - (ii) the document is a document of the type to which the agreement applies; and
 - (iii) the person is notified in accordance with the agreement of the publication of the document on the website, the address of the website, the place on the website where the document may be found, and how the document may be accessed on the website.

Provided that, if there is a requirement that a person have access to a document for a specified period of time, the person must be notified of the publication of the document before the commencement of the period and the document must be published on the website throughout the whole of the period.

- (f) Nothing in the foregoing shall invalidate the deemed delivery of an electronic copy of a document if:
- (i) the document is published for at least part of a period; and
 - (ii) the failure to publish it throughout the whole of the period is wholly attributable to circumstances that the Company could not reasonably have been expected to prevent or avoid.

WINDING UP

135. If the Company shall be wound up, the liquidator may, with the sanction of a Resolution of the Company and any other sanction required by the Companies Acts, divide amongst the Shareholders in specie or kind the whole or any part of the assets of the Company (whether they shall consist of property of the same kind or not) and may for such purposes set such values as he deems fair upon any property to be divided as aforesaid and may determine how such division shall be carried out as between the Shareholders or different classes of Shareholders. The liquidator may, with the like sanction, vest the whole or any part of such assets in trustees upon such trust for the benefit of the contributories as the liquidator, with the like sanction, shall think fit, but so that no Shareholder shall be compelled to accept any shares or other assets upon which there is any liability.

141. Notwithstanding anything contained in the Principal Act, the Company may advance moneys to an Officer or Director for the costs, charges and expenses incurred by the Officer or Director in defending any civil or criminal proceedings against them on the condition that the Director or Officer shall repay the advance if any allegation of fraud or dishonesty is proved against them.

The Charter backlog illustrations are based on the fixed charter period, excluding any options, and the information may change without notice. Vessels on short term charters (<1 year) are shown as “short term contract”. Some charters have purchase options that will if exercised reduce the contracted backlog. The data is for illustrational purposes only and SFL is not responsible for the accuracy and reliability of the data.

*) Seadrill has disclosed that it is evaluating comprehensive restructuring alternatives to reduce debt service costs and overall liabilities, including leases. While no assurances can be provided with regards to the outcome of the Seadrill restructuring and negotiations, SFL continues to have constructive dialogue with Seadrill and the relevant financing banks.

Annex 5 Contracted charter backlog

The Charter backlog illustrations are based on the fixed charter period, includes fully owned vessels and 100% of four partially owned 19,000 TEU container vessels, which SFL also manages. The backlog excludes rigs, charterers' extension options and purchase options. The information may change without notice. Vessels on short term charters (<1 year) are shown as "short term contract". Some charters have purchase options that will if exercised reduce the contracted backlog. The data is for illustrational purposes only and SFL is not responsible for the accuracy and reliability of the data.
